SALARY

* As of July 2012, the 4th tranche of what is popularly known as the Salary Standardization Law III (SSL) has been implemented.³

¹ EO 80, directing the adoption of a performance-based incentive system for government employees

² An executive issuance issued yearly authorizes the release of the PEI.

³ RA 6758, signed into law in 1989, resolved previous distortions in the government compensation system by, among other things, upgrading the salary of government workers in tranches. Wage increases brought about by SSL III are a direct result of the implementation of this law.

Why change the current incentive system?

Under the current incentives system, across-the-board bonuses are given uniformly to all civil servants.

However, service delivery can be improved by linking incentives to the employee's performance—along with his bureau's performance—and rewarding exemplary work.

This, in turn, will encourage improved performance and accountability, as well as ensure the accomplishment of commitments and targets.

How can our department qualify for the PBB?

1 Achieve at least 90% of set targets

An agency determines its own targets. There are two kinds:

PRIORITY PROGRAM TARGETS

Determined by Key Result Areas, approved by the President and based on his Platform.

MAJOR FINAL OUTPUTS (MFOs)

Based on services and goods an agency should deliver. Approved by Congress.

2 Meet all 4 Good Governance requirements set by the Inter-Agency Task Force created by A025⁴

Mandatory disclosure of budget information on the agency website

Posting of all invitations to bid and awarded contracts in the Philippine Government Procurement Electronic System (PHILGEPs)

Liquidation of all cash advances for the year within the reglementary period

Establishment of a Citizen's Charter or its equivalent

3 Submit compliance reports on or before the deadline.

⁴Administrative Order 25, s. 2011, Creating an inter-agency task force on the harmonization of National Government performance monitoring, information and reporting systems

The incentive rates vary and will be based on 2 factors: an employee's performance and the performance of his or her agency.
